

# FORWARD

The Architecture and Design Journal of the AIA National Associates Committee

## *Forward Call for Associate Directors*

### **Submissions Due Friday, February 17th**

Forward and the American Institute of Architects (AIA) National Associates Committee (NAC) invites applicants for Forward Associate Directors.

Forward, the bi-annual design journal of the National Associates Committee, is distributed to AIA leadership, 85,000+ members, non-members and educators. The journal is a research-based publication that presents articles from the perspective of the designer or artist. We also strive to extend our focus beyond architecture towards multidisciplinary discussions incorporating art and technology.

Each issue of Forward is created through a highly collaborative effort. The Forward Associate Director(s) will work directly with the Forward Director on the journal's production and direction, as well as report to the NAC Communications Director, the NAC Communication's Committee (CCom), Forward Advisory Board (FAB) and the NAC Chairperson.

We are looking to fill the following positions:

***Forward Associate Director – Editor***

***Forward Associate Director – Graphic Editor***

***Forward Associate Director – Wordpress Editor***
