# **AIA/Deltek Architecture Billings Index (ABI)**

**June 2024**

The AIA/Deltek Architecture Billings Index (ABI) is a diffusion index derived from the monthly Work-on-the-Boards survey, conducted by the AIA Economics & Market Research Group. The ABI serves as a leading economic indicator that leads nonresidential construction activity by approximately 9-12 months. The survey panel asks participants whether their billings increased, decreased, or stayed the same in the month that just ended. According to the proportion of respondents choosing each option, a score is generated, which represents an index value for each month. An index score of 50 represents no change in firm billings from the previous month, a score above 50 indicates an increase in firm billings from the previous month, and a score below 50 indicates a decline in firm billings from the previous month.

\*All graphs represent data from June 2023–June 2024.

# National

## Architecture firm billings continued to decline in June

Graphs represent data from June 2023–June 2024.

Above 50

Below 50

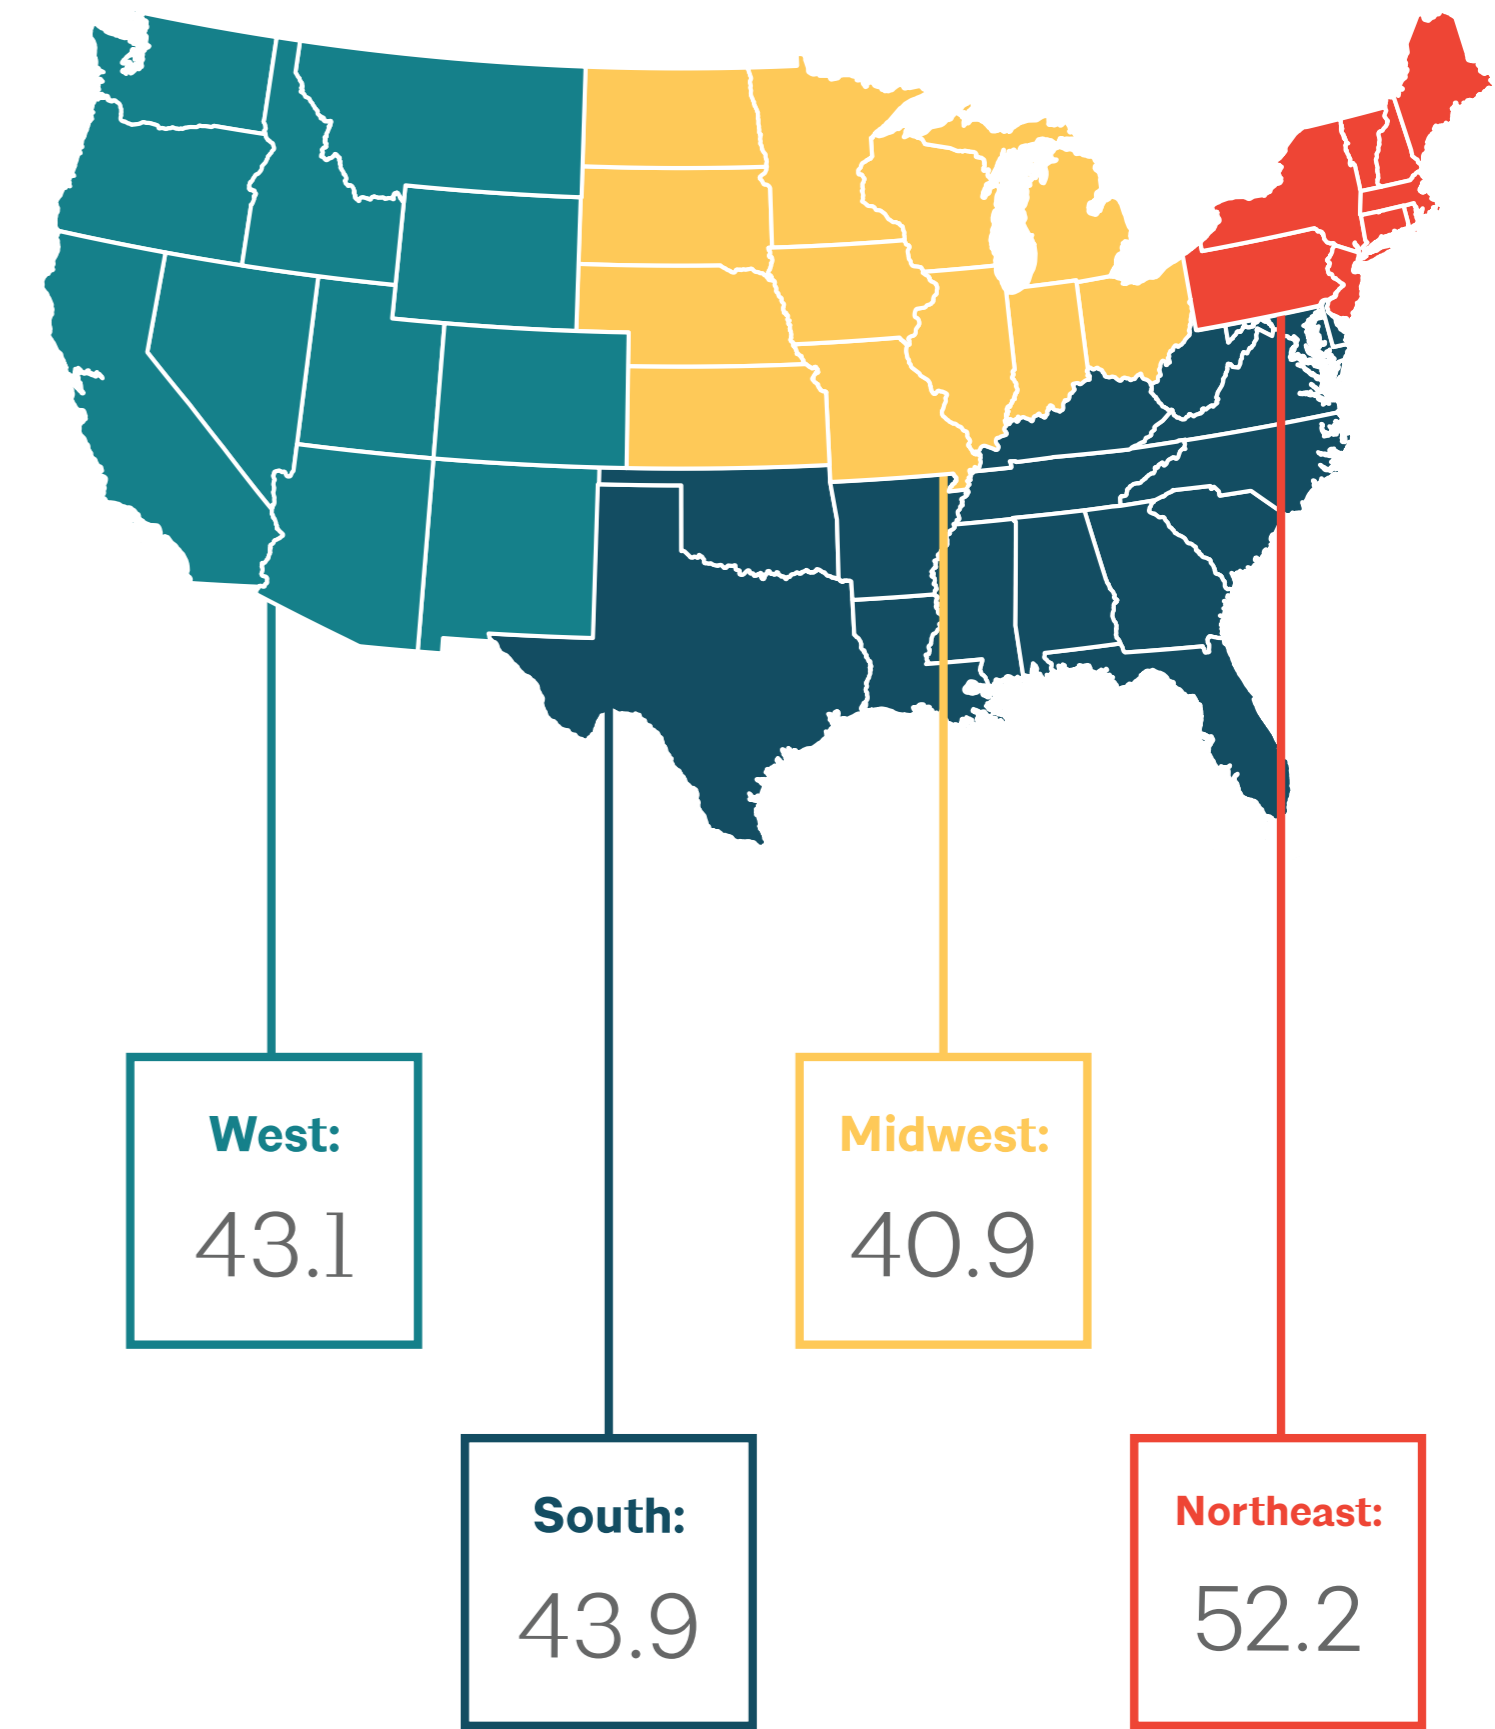

No change from previous period

# Regional

## Billings declined further in all regions except the Northeast

Graphs represent data from June 2023–June 2024 across the four regions. 50 represents the diffusion center. A score of 50 equals no change from the previous month. Above 50 shows increase; Below 50 shows decrease. 3-month moving average.

# Sector

Firms of all specializations continue to experience soft business conditions

Graphs represent data from June 2023–June 2024 across the three sectors. 50 represents the diffusion center. A score of 50 equals no change from the previous month. Above 50 shows increase; Below 50 shows decrease. 3-month moving average.

**Commercial/Industrial: 42.0**

**Institutional: 44.3**

**Residential: 45.1**

# Practice

Fewer firms consider their architecture staff to be understaffed now than one year ago

units: % of firms, current status of architecture staff needs at their firm
